

Inter Service Squabble In Anti-Missiles

WASHINGTON (UP)—The Army and the Air Force today appeared ready to launch a new inter-service squabble—this one a flare-up of their longstanding race for the best anti-missile.

An Air Force spokesman attacked the capabilities of the Army's Nike-Zeus anti-missile weapon one month to the day after Defense Secretary Neil H. McElroy ruled work should go ahead on the Army rocket to the exclusion of the Air Force's Wizard.

On Feb. 18, Lt. Gen. Donald L. Pitts, Air Force deputy chief of staff for research, told the House Armed Services committee the Air Force doubts if the Nike-Zeus, estimated to cost six billion dollars or more, could successfully combat a Russian missile attack. His testimony was made public Friday in heavily-censored form.

On Jan. 18, McElroy had told the Air Force to keep working on detection and control systems it was planning for the Wizard missile. But he said the Army would proceed with work on the Nike-Zeus as the nation's prime anti-missile weapon.

Predicts Soil Bank Funds to Be Upped

WASHINGTON (UP)—An Agriculture Department official predicted today Congress will provide enough soil bank funds to cover applications of all farmers who wish to participate in the acreage reserve program this year.

The official made the prediction after the House Appropriations Committee recommended Thursday an additional 175 million dollars for the soil bank acreage reserve.

Last year, Congress voted to limit acreage reserve payments in 1958 to 500 million dollars.

The department did not ask for the additional money. Officials had said they would parcel out the original 500 million dollars through state, Agricultural and Stabilization Committees. But 5 farmers signed applications more readily than the department thought they would and the original funds were committed about two weeks before the sign-up period ended.

The House committee then recommended the additional 175 million dollars. Department officials said they believed the Senate Appropriations Committee will act accordingly and up the amount to cover all applications.

Through Feb. 7 applications had been received to retire 15,731,811 acres from the production of corn, cotton, wheat, rice and tobacco.

All are approved the government payment will total \$642,712,974.

The sign-up period for corn, cotton and spring wheat ended Thursday and tobacco and rice signups will close March 7. It will be several days before all applications are processed. Officials predicted the total may run more than 700 million dollars, somewhat heavier than the 1957 acreage reserve payments of 64 million dollars.

The unexpectedly heavy participation occurred in corn and cotton.

6 Below Coldest in the Nation

NEW YORK (UP)—Coldest town in the nation today—as reported to the U.S. Weather Bureau—was Elkins, W. Va., with a temperature of 6 degrees below zero.

Annapolis, Md., was the warmest reported Thursday with a temperature of 78.

Weather

Mostly cloudy and mild Saturday and Sunday. Highest in 60s Saturday.

Extended — Saturday-Wednesday — Temperatures will average near or slightly below normal. Normal maximum 53, normal minimum 27. Slow moderating trend throughout the period. Precipitation generally heavy in occasional rain beginning on the weekend.

NOTICE

Extra copies of Friday and Saturday's Hope Star available at Star office while they last. These editions contain tournament team pictures of State Class A girls basketball squads.

Last of 16 Cage Team Pix

MANILA — front two left to right — Hope Star photo Barbara Vassar, Linda Wells, Linda Wall. Second row — Carlean Chipman, Sherrie Lewis, Shirley Bray, Pat Bollinger.

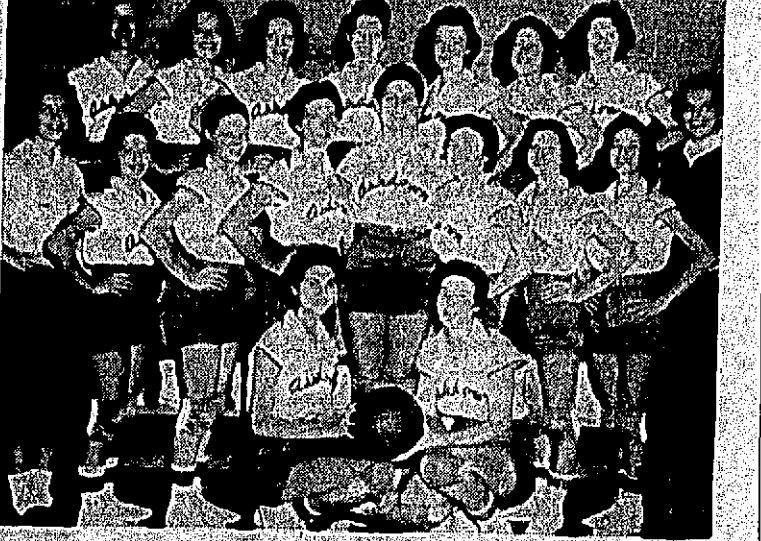

Back row — Buelah Peyton, Janice Rowland, Coach Wanda Carroll, Peggy Carrick, Sally Welch and Manager Polly Tucker.

Manila ousted Van Buren 47-39 in the semifinals last night and will meet Monette in the finals tonight at 8 p.m.

GREENWOOD — Was ousted by Manila Thursday afternoon. From left to right: Belva Barnard, Anna Bridges, Bennie Bridges, Ella Mae Gresham, Janice Gilbreath, Barbara Long.

2nd row: Jessie Minten, Mary Nicely, Myrtle Powell, Carolyn Qualls. Wynne Seabree and Coach Miro Spicer.

PICTURED above are the Ashdown Panthers, 1957 state champions, who lost out to Monette 48-44 in this year's opening round. The picture is a Hope Star reduction of a large original photo, submitted by the Ashdown team.

Sir Winston Churchill Has a Good Night

ROQUEBRUNE, France (UP)—Sir Winston Churchill passed a good night and was quite comfortable this morning, sources close to his physician said today.

The sources said Lord Moran, Churchill's long-time physician, and Dr. David Roberts, undertook an examination of the 83-year-old statesman shortly after 8:30 a.m.

Physicians were carefully watching Churchill's heart as he entered the fourth day of his fight against the pleurisy and pneumonia which struck him down Tuesday.

Oxygen equipment including an oxygen tent arrived today at a Noi Airport, consigned "just in case" by the British command which supplied Churchill previously with such equipment.

It was not necessary and was not needed at the moment. It was still unclaimed at the airport several hours after it was unloaded and Dr. Roberts said there were no plans to use it now.

Neither Moran nor Roberts has given any details of the treatment they are using. They also would not identify the specific type of pneumonia from which Churchill is suffering.

This was believed to be on Churchill's own orders. The former prime minister was said to have been appalled by the great detail in which functions were carried out in his apartments and accordingly he personally passing every word given out for public consumption.

Personal U. S. Incomes Have Levelled Off

WASHINGTON (UP)—The government says the nation's personal income, pulled out of a four-month skid last month and leveled off at the same rate reported in December.

But it said heavy dividends were responsible for maintaining the December income level. The rate of other income payments fell by 1 1/2 billion dollars from December to January.

The Commerce Department reported Thursday the January personal income rate — if projected over the entire year — would be \$343,500,000,000. This was equal to the December rate and about 1 per cent below the record rate of last August.

The department noted that January income also was about 2 per cent higher than in January, 1957.

Personal income includes wages, salaries, interest, dividends and other individual income. It declined in each of the four months between August and January.

The report said the January total reflected the unusual movement of dividends over the year and rather than the underlying flow of income arising from current production.

The annual rate of wages and salaries was \$236,500,000,000 during January, a decline of 1 1/2 billion dollars from last August's high. The drop was concentrated in manufacturing, mainly in the hard goods industries.

Baldwin to Build Fayetteville Plant

FAYETTEVILLE (UP)—The Baldwin Piano Co., of Cincinnati said today it will build a plant to make electronic organs here, operating at first in a temporary leased building.

W. C. Whitfield, president of the Chamber of Commerce and L. L. Baxter, president of the Fayetteville Industrial Foundation made the announcement today.

Baldwin officials said the factory would begin operations "as soon as the firm can lease a temporary building." The plant is to be erected in the southwest part of the city.

A Fayetteville architect, Paul Young, has been commissioned to design the Baldwin plant. The firm has released no figures as to the plant's cost or number of workers to be employed.

The plant would manufacture a new model organ which would supplement the organs which are turned out at the main plant at Cincinnati.

Good Chance for Five Cent Postage Stamp

WASHINGTON (UP)—Administration backers said today there is a good chance the Senate will go along with their argument that what this country needs is a 5 cent stamp.

But Sen. A.S. Mike Monroney (D-Okla.) said he does not expect "a bit of trouble" knocking that feature out of the postal rate increase bill when it comes before the Senate next week.

The Senate Post Office Committee, of which Monroney is a member, produced a surprise Thursday when it approved a 750-million-dollar rate increase that included a 2-cent boost for out of town letters.

The bill, which generally followed administration proposals, would retain the 5-cent rate for three years and earmark the extra money it would raise for post office improvements.

Local first class mail, which now goes for 3 cents an ounce, would be raised to 4 cents and airmail would cost 8 cents, a penny higher than the administration recommended. Airmail now is 6 cent an ounce.

The committee split 7-6 on the "split level" first class rate. A close battle also is expected in the Senate next Tuesday.

Besides raising the cost of mailing first class and airmail letters, the bill would raise some post card rates to 3 cents and airmail post cards from 4 cents to 5.

Handwritten post cards still would go for 2 cents.

The measure also would boost second and third class rates. Second class sending matter would go up 10 per cent annually for the next three years and advertising would take three 20 per cent jumps. Third class would be increased about 66 2/3 per cent in two stages.

Witness Links Kefauver to FCC Permit

By NEIL MACNEIL
United Press Staff Correspondent
WASHINGTON (UP)—A Florida utilities executive testified today that executive orders "told" Federal Communications Commission Chairman Kefauver to "every fair consideration" given to an applicant in a hotly contested Miami television case before the FCC.

Ben H. Fuqua, vice president of the Florida Power & Light Co. and a college classmate of Mack, told a House subcommittee he received the assignment from his boss, McGregor Smith, chairman of the board of the power company.

He said Smith told him he wanted to "repay" Kefauver for a favor.

Rep. Charles A. Wolverton (R-N.J.) said Fuqua testimony added to the mounting evidence that there was a widespread network of attempted influence, pro and con, on Mack and perhaps other FCC members in the Miami Channel 10 case.

Talked to Mack in 1956, Fuqua said Smith sent him to Washington to confer with Kefauver and do the senator's bidding in the case. He said Kefauver wanted to help Col. A. Frank Katzevich, former mayor of Miami Beach who was one of four applicants for Channel 10.

Fuqua said he carried out his "mission" in early 1956—almost a year before the FCC voted on the controversial award.

The FCC reversed its own earlier recommendation that Katzevich get the channel and voted instead to award it to National Airlines.

Investigators Prepare For 'Payoff' Inquiry

By NEIL MACNEIL

United Press Staff Correspondent
WASHINGTON (UP)—House investigators today prepared to enter the crucial phase of their inquiry into a suggested "payoff" to FCC Commissioner Richard A. Mack in the award of a Miami television channel to National Airlines.

The House subcommittee on legislative oversight will call Monday Corn Gables, Fla., attorney Thurman A. Whiteside, who has been accused of being a "fixer" and giver of \$2,650 to Mack.

Whiteside, waiting to testify for a week, declined to comment on the hearings or what he will say. However, he pointed out that he is appearing voluntarily "at the committee's invitation" and is not under subpoena.

Calls Counsel 'Liar'

When the charges were first leveled by former committee counsel Bernard Schwartz, Whiteside called Schwartz a "liar." Both he and Mack have said the money was a loan and Mack has invited the investigators to inspect his financial records.

Subcommittee chairman Owen Harris (D-Ark.) said Mack would follow Whiteside to the stand either on Tuesday or Wednesday.

At the same time, Sen. Wayne Morse (D-Ore.) renewed his call for a Senate investigation of independent agencies and suggested two cases involving the Interstate Commerce Commission.

Morse Questioned

He questioned the "propriety" of former ICC Chairman Owen Clarke becoming a vice president of the Baltimore & Ohio Railroad after leaving the ICC. He said Edward M. Rely, who was ICC general counsel during a case involving the Union Pacific Railroad who later resigned and became the railroad's attorney when it appealed the ICC decision to the Supreme Court.

For awhile Friday, the tenor of the House investigation was split with laughter by the apparent wit of white-haired 70-year-old Jerry Carter of Miami, a Florida Democratic national convention chairman.

"I'm just a cheap politician," said Carter. "The people I represent in Tallahassee can't afford an expensive one."

Discussing the characters involved in the disputed Miami Channel 10 case, Carter said:

All Honorable Men

"Every one is an honorable man — compared with the standards of honor that we live up to in this day and time."

As for himself, after the room quieted, the remarkably candid Carter added: "I have tried to quit living all my life. It's the hardest job I ever tried."

Interspersed in the laughter, Carter did some testifying. He said he had heard repeated rumors Mack had "pledged" himself to National Airlines through Whiteside. He said he once advised Mack to disqualify himself if he could not get released from a pledge Mack voted for the airline in the 42 Federal Communications Commission decision giving it highly lucrative channel 10.

Hope Is a City That Believes in Taking Care of Young Folks

By MARY ANITA LASETER

A country is only as strong as the moral spirit of its people — especially its young people, for they are the backbone of the future.

Like any construction, that of a good moral spirit needs a firm foundation. In the case of our young people, it can be attained through the right kind of guidance and examples set at home.

And outside the home, you ask? That is where the people of Hope are most fortunate.

One of our newly remodelled Youth Center was opened, to the delight of all concerned, it provides good, wholesome fun for the youth of Hope, and with the help of local businessmen it will also be air conditioned by the time summer rolls around.

Every church in town has one or more organizations for young people. Besides religious groups, others, such as Scout troops often have churches for their meeting places. There are six troops of Brownies and 11 Dens of Cub Scouts, while Girl Scout troops number six and Boy Scout troops, five.

Varying interests of students outside the classroom have not been forgotten either. The Eastern Star sponsors the Rainbow Girls, and

Credits Pie Crust With Winning

CHICAGO (UP)—Brown-haired Barbara Chisholm, Huntsville, Ala., credited her pie crust and experience in the kitchen with helping her win the 20th annual national cherry pie baking contest.

The petite, 16-year-old high school girl was named champion Thursday afternoon, defeating 49 girls and one boy from the United States, Alaska, Hawaii and Canada.

Her next stop will be a trip to New York and Washington, where she will present a sample of her pie baking artistry to President and Mrs. Eisenhower.

She also won a \$500 scholarship and an electric range.

Runners-up were Euvonia Shorter, 15, Aricksee, Calif.; Susan Harris, 16, Selma, Ind.; Sandra Bedwell, 15, Benton, Ky., and Opal King, 17, Gaithersburg, Md.

The only boy in the contest, Harold Schweitzer, 10, of Montana, was "undunted" by his setback.

"I'm not crushed by being beaten by all those women," Harold said. "I still feel self-confident. I'll always keep cooking."

Good Weather Now for Next Five Days

By UNITED PRESS
The weatherman had good news today for Arkansians who don't like cold weather.

He predicted a slow moderating trend Friday through next Wednesday.

As a forerunner, the mercury started its upward surge today. The minimum was no lower than 22, and by mid-morning, temperatures were in the high 40's and low to mid 50's throughout most of Arkansas.

The forecast said it would be mostly cloudy through Saturday with scattered light rain in the west portion tonight and throughout the state Saturday. Little change in temperatures was forecast. Highs today will be in the mid 40's northeast to mid 50's southwest, lows tonight in the low 30's to low 40's and highs Saturday in the mid 40's to mid 50's. Sunday will continue cloudy with occasional rain.

The extended forecast, Friday through next Wednesday, said temperatures will average near or slightly below the normal maximum of 58 and the normal minimum of 37, with a slow moderating trend throughout the period. Precipitation will be generally heavy in occasional rain beginning during the weekend.

The high in Arkansas Thursday was 63 at El Dorado, the low this morning 22 at Batesville.

At 11 a.m., skies were partly cloudy at El Dorado, Fort Smith and El Dorado, and cloudy elsewhere in Arkansas and at Memphis. Walnut Ridge had 40 degrees, Memphis 43, Pine Bluff 47, Little Rock 48, Fort Smith 50, El Dorado 54, Fayetteville 52, Texarkana 54, an El Dorado 55.

Junior High Mothers Meet on Monday

There will be a meeting at the Youth Center on Monday, Feb. 24 at 3 p.m. of all interested in setting up special hours at the Youth Center for the Jr. High Age Group. The proposal now is to set aside Saturday night from 6:30 until 8:30 exclusively for Junior High students — All mothers interested are urged to attend.

Hope Is a City That Believes in Taking Care of Young Folks

The Kiwanis Club is the parent organization of the Key Club. The Student Council and the National Honor Society stress good self-governing as well as the attributes of scholarship, leadership, character and service.

Twelve different clubs at Hope High are designed to prepare the student for a future career. These cover fields from music to mathematics, from homemaking to history.

The Parks and Recreation Commission has done much in helping the young people in our town through the organizing of a Little Club and classes in archery and swimming in the fall, grade school football teams are formed, and during baseball season there are the Little League and the Pony League.

From time to time special activities are designed for those young people who are interested in the organization of a Little Club and classes in archery and swimming in the fall, grade school football teams are formed, and during baseball season there are the Little League and the Pony League.

Whether the sponsoring adults are relatives, teachers, or interested citizens, they are friends of the young people in Hope. It is because of this, above all else, that we make their work successful.

Mrs. Boyce Drummond

COMIC OPERA, "The Secret of Suzanne" will be presented Tuesday, February 25, in Junior High auditorium. Mrs. Boyce Drummond sings in the opera and the cast includes Bill Thomson of Hope, Eugene Kuper and Miss Evelyn Bowden is accompanist. Mrs. Drummond, whose husband is an associate professor of history at Henderson State Teachers, has appeared on television in Chicago and currently teaches voice in Arkadelphia where she is soloist for First Methodist Church.

Cucumber and Melon Growers Fight Disease

Watermelon and cucumber producers are planning an intensive drive to lower the heavy financial loss to lent spot, anthracnose, gummosis, related disease and insect recording to information released today by Hempstead County Agent Oliver L. Adams.

A committee of watermelon producers meeting early last week reviewed the situation utilizing the latest possible data of the Agricultural Experiment Station. On the committee representing Cucumber and Melon townships were: Irvin Burke, Jesse C. Burke, Jimmy Arnold, James H. Burke, Andrew R. Avery and Clyde Cummings. The committee has a program underway to try to control diseases and insects on all cucumber crops including watermelon, cucumber, cantaloupes and squash both commercial and home garden plantings.

The plan for control of the lent spot diseases and insects includes land selection, seed treatment, and dusting or spraying.

The plan of the committee will be explained in detail at three meetings scheduled for Tuesday, February 25, by County Agent Adams and Assistant County Agent for Negro Work, Cayce Smith. Dr. Goode, University of Arkansas Research Plant Pathologist on Diseases, Earl Allen, Extension Horticulturist, and Cecil Billie, Assistant Director in charge of the Southwest Branch Experiment Station will appear on the program.

Tuesday morning at 9:30 meetings will be held at Jewell Moore store and at Antioch Church. Tuesday afternoon at 1:30 the final meeting of the series will be held in the Hempstead County Courthouse. All producers of cucumber crops are invited and urged to be in attendance at the meeting of their choice.

Cucumber producers for the Brown-Miller Company have already attended contract producer meetings. All pickle cucumbers in Hempstead County in 1958 are to be produced using the details of the plan to be explained Tuesday. Jack Johnson of Hope who is now accepting cucumber contracts for the Brown-Miller Company in Hempstead County is cooperating in the disease and insect control work.

Ed F. McFaddin Seeks 3rd Term

LITTLE ROCK (UP)—Associate Justice Ed F. McFaddin announced today as a candidate for a third term on the State Supreme Court bench.

He filed his pledges and paid his \$1,500 filing fee to Secretary of State C. C. Hall. He is seeking his third eight-year term.

INTERVIEW CHARGED
BABAT Morocco (UP)—The irregular Moroccan "Army of Liberation" charged today that American-made airplanes of the French Air Force have intervened in the sporadic fighting between the liberation army and defenders of Spanish-held territories in the Sahara. A communique published by Al Aiam, organ of the puppet Regal Party said that 40 such planes took part in fighting Feb. 11 at Segukia el Harra, and that 15 "borrowed" planes took part in fighting last week in the Spanish West African enclave of Ifni.

School Board Holds Hearing On Request

LITTLE ROCK (UP)—The Little Rock School Board held a hearing today on a request for the reinstatement of a 16-year-old white girl to classes at Central High School.

Sammie Dean Parker, the daughter of Mr. and Mrs. Jay D. Parker, had been suspended along with a white boy for being in possession of cards reading "One down—Eight to Go."

The girl and her father left the hearing room at 10:30 a.m., and told newsmen waiting outside that they were told the decision would be handed down within two hours. At 12:30 p.m. Mrs. Parker said her husband and daughter had been called back to the school board office, but no decision had been announced.

The board scheduled a second hearing at 5 p.m. for Howard Cooper, a 16-year-old white boy suspended for the same reason.

The board refused to let newsmen inside the administration building, and did not permit Little Rock Attorney Amis Guthridge all in on the hearing.

Guthridge had told newsmen he was representing both the students.

He said Thursday that he would demand the reinstatement of the two students, and if that failed, he would ask the school board to resign. He said the school board refused, he would file criminal informations charging malfeasance and non-feasance.

The Parker girl told newsmen that Superintendent Virgil T. Blossom told her the board would have one of three verdicts: "It would expect her for the remainder of the semester, give her two weeks suspension, or reinstate her to classes."

Parker said the board members treated them every place and distorted twisting they had to stay in school.

Guthridge went into the administration office after telling newsmen he and Board Chairman Wayne Upson are "going to talk over a little law." Fifteen minutes later, Guthridge came out. He said the board had taken a vote and decided to exclude him from the hearing.

Guthridge said he "knew" he was legally entitled to attend the hearing as a taxpayer under a 1953 State Statute.

Thrill Killer Looks Forward to Freedom

By ART UNDERWOOD
United Press Staff Correspondent
JOLIET, Ill. (UP)—Thrill killer Nathan Leopold, smiling for the first time in 33 years, looked forward today to freedom within a month and a career of service to his fellow men.

Leopold, 53, who admitted he helped commit one of the most sensational crimes of the century, alternated between bubbling joy and dazed disbelief Thursday when told he had won parole.

"All I want to do is to forget and be forgotten," he told his attorney, Elmer Garz, Chicago.

He took the first step in that direction by refusing to see 75 newsmen waiting to interview him at a Stateville Prison, where he has spent more than 23 years for the murder of 14-year-old Bobby Franks.

He hopes to take the next step toward obscurity by accepting a job as a medical technician in a charity hospital near Custer, Puerto Rico.

Although he has had offers of well-paying executive positions in Chicago, Leopold said he would prefer the \$10-a-month job in the Puerto Rican mission operated by the Church of the Brethren.

Leopold could walk out of Stateville in a week to 10 days if he were to take a job in Illinois. However, it is expected to take about a month to investigate the suitability of the Puerto Rican job and work out arrangements for parole supervision.

SOCIETY

Phone 7-3431 Between 8 A. M. and 4 P. M.

Calendar

Tuesday, February 25

Friday Music Club will present a group from Arkadelphia in a one act comic opera "The Secrets of Suzanne" on Tuesday evening at 8 o'clock in the Junior High School Auditorium.

Tuesday at 3 p.m. Chapter AE of PEO will meet in the home of Mrs. Herbert Stephens in Blewin with Mrs. Mildred Trotter as co-hostess.

The Women of the Presbyterian Church will meet Tuesday at 2 p.m. in the home of Mrs. Dorsey McRae for a special study of the book on Luke under the title of "Meet Dr. Luke."

Kathleen Mallory, Circle of the First Baptist Church will meet on Tuesday night, Feb. 25 at 7:30 in the home of Mrs. Julian White. All members are urged to be present.

The Cosmopolitan Club meets Tuesday, Feb. 25 at 7:45 p.m. in the home of Mrs. Oliver Adams with Mrs. Jim McKenzie as associate hostess. Mrs. L. T. Lawrence will have the book review.

Wednesday, February 26
Circle 5 of the WSCS of the First Methodist Church will meet in the home of Mrs. E. P. Young Sr. with Mrs. Kinard Young, Mrs. Carl Jones and Mrs. Kenneth Witt as co-hostesses at 7:30 p.m.

Order Eastern Star Banquet Honors Worthy Grand Matron

The OES Banquet honoring Worthy Grand Matron, Ida Eaves, was held in the main dining room of the Diamond Cafeteria, Thursday evening, Feb. 20, where 50 guests were served.

The tables were beautifully decorated with yellow jonquills and green candles. Small hatchets with tiny ribbon around the word "Ida" and a small star at the bottom of the hatchets were used at each place as favors.

Victor Cobb was master of ceremonies and the invocation given by Mr. W. E. McFarland. The welcome was given by Mae Beatty and the response by Ula Capps of Foreman, Ark.

The guest speaker, Roy Ransom of Delight gave a most interesting talk. The program was arranged by Mrs. Jewel Cobb who is Worthy Matron for Hope Chapter 328.

For entertainment, Helen Ratliff presented Miss Sharon Ann Evans in a tap dance number. Following the banquet, a meeting was held in the Masonic Hall. Grand officers from all over the state were presented to the chapter. The Worthy Grand Matron, Ida Eaves, and district grand lecturers, were presented honorary memberships to the Hope Chapter. Victor and Jewel Cobb were given grand appointments by Ida Eaves, worthy grand matron.

The main address was by Mrs. Eaves on "Ruth" in honor of Julia Watkins who is Grand Ruth of Grand Chapter and OES of Arkansas.

An offering was given to the research of cancer which is a project of Ida Eaves for the 1958 year. Refreshments were served to 70 members and guests following the meeting.

Weeks Good, Badd News Around World

Foreign News Commentary
By CHARLES M. MCCANN
United Press Staff Correspondent
The week's good and bad news on the international balance sheet:

President Eisenhower asked Russia's leaders this week to start negotiating for a "summit" conference instead of just talking about one.

He also suggested that Russian charges of American war-mongering were due either to ignorance or deliberate misrepresentation.

Eisenhower set forth his views in a letter to Soviet Premier Nikolai A. Bulganin. It was the latest in a series of exchanges which Bulganin started last December in the Kremlin's campaign for a "summit" conference on means of reducing world tensions.

In suggesting that Soviet leaders choke off their bombardment of propaganda statements, the President referred both to Bulganin's letters and the speeches by Communist Party Leader Nikita S. Khrushchev.

France and Tunisia accepted an offer by the United States to help them settle their dispute over the bombing of a Tunisian border village by French Air Force planes based in Algeria.

The immediate result was to avoid a United Nations debate which would have made the situation worse and would have benefited only Communist propagandists.

A local French commandant had ordered the village bombing after months during which machine guns set up on the roof of the Tunisian Administration Building had fired on planes of the French Air Force in Algeria. French troops have long been angry over the help which Tunisia has given to the Algerian rebels.

In an obvious propaganda move the Chinese Communist Premier Chou En-lai announced that Chinese troops would be withdrawn from North Korea this year and suggested that the United States pull its troops out of South Korea.

The United States promptly announced that its troops would remain in Korea until the Reds agreed to free elections, supervised by the United Nations, to unite North and South Korea.

Withdrawal of American troops would be of obvious advantage to the Communists.

Chinese troops would remain on the Manchurian frontier, in position to invade Korea again at any time. As the United States no longer maintains combat troops in Japan, it would have to move forces from Okinawa, the island base between Japan and Formosa to meet any new Communist attack on South Korea.

Soviet Russia followed up the Chinese Red move by suggesting that nuclear weapons be barred from North and South Korea and that an international conference be called to get the two parts of the country together.

The government of the Sudan, Egypt's neighbor to the south, accused Egyptian President Gamal Abdel Nasser of trying to grab two small areas on their frontier. Sudanese Foreign Minister Mohammed Ahmed Mahgoub flew to Cairo to discuss the situation with Nasser.

Their talk ended in disagreement. The Sudanese government announced it would ask the U.N. Security Council to take up the dispute.

The two areas in question have been under Sudanese administration since 1902. Egypt, though agreeing to this, always has laid formal claim to the territory.

Shirley Moody, Phyllis Brown, Gwen Parme, Brenda Evans, Jennifer Smith, Shirley Stone, Joy Highfill, Dorothy Wilson and Betty McKenzie, Committee in Charge of Decorations, Phyllis Brown, Bill Land, Ann Arnold, Ruby Davis, Postman were Joe Hargis, Jack Lloyd, Gwen Parme, Jennifer Smith, Brenda Evans, Committee for gold drinks, Linda Allen, Jimmy Walker, Jimmy Carver, Billy Gilbert and Ann Arnold.

Clubs

"Menacing Shadows" a film pertaining to malnutrition showing how careless food selections have undermined industry, schools and safety and "The Other City" a cancer film were shown by Mrs. Lorraine B. Wylie, Home Demonstration Agent, when the Victory Home Demonstration Club met at the home of Mrs. Cecil Smith for the February meeting.

Mrs. Joe Wille, past president, was in charge of the business meeting. The devotional taken from Numbers 27:15-23 was given by Mrs. Smith followed with a prayer by Mrs. E. C. Calhoun.

An all day workshop to make straw purses was planned for Tuesday, February 25, at the home of Mrs. Wylie. All Home Demonstration Club members having straw for purses are urged to attend. Pot luck will be served at noon.

Refreshments were served to 11 members and 1 visitor, Mrs. Ernest Graham, Home Demonstration Council President of Hope, club adjourned to meet March 3 with Mrs. E. J. Rowe.

SPUTNIKS FOR BREAKFAST — Beginning in February early risers in upstate New York can start learning Russian via TV. Station WRGB-TV in Schenectady has announced a 6:30 a.m. basic course in the language. Lessons will be a half-hour long and run twice a week for 12 weeks. The first attempt to teach Russian by television, it will be conducted by Dr. Irving S. Bengelsdorf of the General Electric Research Lab. While aimed primarily at the large number of scientific personnel in the area desiring to read Russian technical literature, the programs will reach a potential audience of more than a million persons.

Prescott News

Women of Presbyterian Church Hold Meeting

The Women of the Presbyterian Church met Monday, Feb. 17 at 10 a.m. at the church for an all day study and covered dish luncheon.

Mrs. Harold Ingram, chairman, of World Missions of the Women of the Church, was the leader of the study on the mission book, "Until the Day Dawn."

During the morning session reviews were given on five chapters in the book by Mrs. J. R. Bemis, Mrs. D. L. McRae Jr., Mrs. Carl Dalrymple, Mrs. S. O. Logan and Mrs. J. B. Fjanks.

At the noon luncheon members were seated at long tables. Rev. J. H. Robertson, pastor of the church, gave the invocation. After lunch chapter reviews were given by Mrs. Bob Reynolds, Mrs. Wallace Pemberton, Mrs. Henry Moore and Mrs. T. E. Logan.

A self-denial offering was taken at the close of the session. Mrs. Harold Ingram voiced the closing prayer. There were twenty members present.

Superintendent J. Ed Smith Renders Rotary Club Program

Supt. of Prescott Public Schools, J. Ed Smith had charge of the program, Tuesday at the Broadway Hotel.

The program was rendered by the students from different grades by giving their demonstrations and exhibits in science. Misses Susie Ward and Sarah Purdie of Park School gave experiments and demonstrated the magnet. Charles Bittle and Charles Purdie made a number of demonstrations in their knowledge of science. Tandy Johnson and Donald Stigler gave an interesting exhibit of the earth's variations during the year making the four seasons. They exhibited the moon in its orbit, making the quarter, half, full and these the decrease. Bobby Reynolds of

the Junior High explained the working of the telegraph and what makes it click. He gave the Morris code in dots and dashes.

Tom Barham and Ed Brown of the high school, exhibited and explained the stages of the atoms and gave the principles of the Atom and Nitrogen bombs. All the students are to be complimented on their knowledge of science.

Guy E. Basye, Cecil Bittle, Oliver Adams, S. Z. Barwick, Earl O'Neal and past district governor, Terrell Cornelius all of Hope, were visiting Rotarians.

Band Booster Club Meets

The February meeting of the Prescott Band Boosters Club was held on Monday night at the band building.

Mrs. Walter Connell, president, presided. The minutes were read by Mrs. Lucy Lee Chase and Mrs. Dick Harvey gave the treasurers report. It was voted to sell the band boosters maroon and white quilt, the proceeds to be placed in the treasury.

Band Director Hoss Shepherd spoke on awarding pins to Junior Band members who earn a letter and letters for Senior Band students. He showed a variety of pins and letters which could be purchased.

Wesleyan Guild Has Study

Sixteen members of the Wesleyan Service Guild of the First Methodist Church met Monday evening in the home of Mrs. Juanita Taylor for a mission study.

Mrs. Charlie Thomas assisted by Mrs. J. A. Cole, Mrs. L. O. Lee and Miss Sue Martin presented the study.

A dessert course was served at the close of the meeting.

The concluding study will be held on Monday night, Feb. 24 in the home of Mrs. J. A. Cole.

Brownie Troop No. 2 Meets

Brownie Troop No. 2 met Monday afternoon at the City Hall. The girls drew numbers to select the girl to repeat the Brownie Promise in their program on the Prescott News over KXAR radio station Thursday morning. Several games were played.

Donna Mitchell, hostess for the meeting served cup cakes and grape punch to Brownies Helen Friend, Janette McAnnally, Sandra Kay Anderson, Glenda Smith, Susan Ward, Gail Graham, Kathy Kolba and mothers, Mrs. Don Mitchell, Mrs. Garland McAnnally, Mrs. Aubrey Anderson and Master George Mitchell. Gail Graham led in prayer. Five of the Brownies were absent due to illness.

Among those from out of town who attended funeral services for Mrs. Ike Avery on Monday afternoon were Mrs. E. D. Upton, Mr. and Mrs. Claude Upton, Mr. and Mrs. Neal Dunn, Mr. and Mrs. Jack Barger, E. O. Mathis, Derald Williams, James C. Smith and Jack Carder of Camden, Mr. and Mrs. J. W. Meek Jr. of Bradley, Mr. and Mrs. Jim Cole of Hope, Mrs. Dwight Pankey and Melinda

of Rison; Homer Avery, Mrs. Dewey Dean, S. V. Avery and Mrs. Cleve Avery of Memphis; William B. Murry of Arkadelphia; Mitchell Cottingham of Little Rock; Sgt. Charles E. Brown, Sgt. Weaver O. Chamlee and Cpl. James M. Huskey of Camp Robinson.

K. G. McRae Jr. and Miss Kay McRae returned to Houston Tuesday after being called here due to the death of Mrs. Ike Avery. Mrs. McRae remained for a longer visit.

Monday guests of Mrs. Brad Bright were Mr. and Mrs. Gaylon May of Hope and Mrs. Myrtle Hill of Delight.

Mr. and Mrs. Johnnie Hooks returned Monday night from Little Rock where Mr. Hooks attended the Arkansas Retail Hardware Association meeting.

Mr. and Mrs. J. A. Cole had as their guests this week Miss Frances Parker of Fayetteville.

Mrs. Josephine Carrington, Miss Jo Carrington and Ralph Carrington were Monday visitors in Little Rock.

Mrs. Leroy Phillips was the guest of her daughter, Miss Margaret Phillips who attends HSIC on Monday night and attended the Alpha Sigma Tau Mother-Daughter banquet held in the private dining room of Cade's Cafeteria. Mrs. Clifton Gancey accompanied Mrs. Phillips and visited her daughter, Miss Mary Vancey.

Spain produces nearly one-half of the world's supply of olive oil.

In March of 1918, Marshal Ferdinand Foch was placed in supreme command of all allied forces during World War I.

Starts Sunday at the Saenger

MODY, LITTLE CHIEF is the greeting of Jack Mahoney and Julie Adams to "tiny" Tim Hovey who dons war bonnet for scene in Universal-International's "Silm Carter," hilariously heart-warming film in which the three popular favorites are starred.

Jock Mahoney Helps to Make Tim Hovey's Dream Come True

Movie dreams do come true. An 11-year-old youngster from Menlo Park, California, 30 miles south of San Francisco, always had visions of someday being in partnership with a cowboy movie star.

Little Tim Hovey was the boy who had been in a picture, "The Private War of Major Benson," but like most kids, he liked westerns better than white-collar dramas, and Jack Mahoney was Tim's favorite cowboy actor.

Tim Hovey, it turned out, was Mahoney's favorite juvenile performer, and when Universal-International decided to film "Silm Carter," starring Jack Mahoney and Julie Adams, Mahoney suggested Tim for the orphan boy role in the "Inside-Hollywood" story.

BLACK MARKET JAZZ

MOSCOW (UP)—One of Russia's top composers, Yanyu Much, said today that black market dealers in Russia are doing a "big business" in home made phonographs, records and foreign jazz music, including songs "in an attic" in the new capital, Khabarovsk.

Much criticized the Soviet record industry for its shortage in good classical and jazz records, and said the lack of them has led to the black market dealers. Much said he had mentioned where the jazz was recorded but, presumably, because from shortwave broadcasts.

Timbuktu became a symbol for the remote and unreachable when it was a metropolis of the Sahara.

Some frogs can change the color of their bodies to blend with their surroundings.

Every businessman

Legal Notice

ORDINANCE NO. 28
AN ORDINANCE AUTHORIZING THE LEASING OF THE PROPOSED NATURAL GAS DISTRIBUTION SYSTEM AND ITS RELATED FACILITIES OF THE CITY OF BLEVINS, ARKANSAS, AND THE EXECUTION OF AN AGREEMENT AND LEASE, WITH AN OPTION TO PURCHASE, BE IT ORDAINED BY THE Council of the City of Blevins, Arkansas:

Section 1. That the City of Blevins, Arkansas lease to Arkansas Louisiana Gas Company its proposed natural gas distribution system and related facilities for a term of twenty-five (25) years for the rentals, under the provisions of lease, as set out more fully in the form of lease hereinafter authorized to be executed.

Section 2. That the said agreement and lease with option to purchase shall be in substantially the following form:

AGREEMENT TO LEASE
This Agreement and Lease is executed this — day of 1937, by the undersigned Municipality (hereinafter referred to as "Municipality") organized under the laws of the State of Arkansas, and the Arkansas Louisiana Gas Company (hereinafter referred to as "Company"), a corporation organized under the laws of the State of Delaware and authorized to do business in the State of Arkansas, upon the premises and in consideration of the mutual agreements and covenants hereafter expressed, to-wit:

The Municipality proposes to make natural gas service available to its citizens at the lowest possible rates consistent with the cost of service; and to accomplish such purpose proposes to construct a natural gas distribution system and related facilities and together with other municipalities to construct and share in the cost of construction of a natural gas transmission line (hereinafter collectively referred to as "improvements"), described in plans and specifications attached hereto as Exhibit "A", and upon completion of "improvements" to lease it to the Company with option of Company to purchase, for the consideration and upon the terms and conditions as hereinafter set forth.

2. (a) Municipality, at its own expense, shall secure from the Arkansas Public Service Commission a certificate that the public convenience requires or will require the construction and operation of the improvement, and shall secure funds, through the issuance and sale of revenue bonds, necessary to pay the cost of constructing said improvement, including costs of right of way and easements, reasonable engineering, supervision, and attorney's fees, all of the Municipality's expenses incident to the issuance and sale of said bonds. The aggregate of all such costs and expenses is hereinafter referred to as the cost of said improvement. Said bonds shall be twenty-five (25) year bonds issued under the terms of a contract between T. J. Raney and Sons and Municipality, attached hereto as Exhibit "B".

(b) The Municipality agrees that it will not during the life of this lease create, permit to be created, or take any action toward the creation of any lien or encumbrance against the improvement in addition to that of the bonds to be executed under the terms of the aforesaid contract.

3. The Company, at its own expense, will make such applications as may be necessary to regulatory authorities having jurisdiction for the approval of this agreement and for authority to deliver gas into the improvement.

4. The Municipality agrees that it will acquire the necessary rights of way, easements, crossing agreements and suits for the improvement and let contracts for construction of said improvement in accordance with the plans and specifications shown on Exhibit "A", as soon as possible after the execution of this agreement and approval thereof by regulatory authorities.

5. The aggregate of funds received by the Municipality on account of the principal of the bonds issued and sold by it and not needed to pay the cost of the improvement shall be used to call and redeem bonds at their par value, and the Municipality shall make such call and redemption as soon as the amount needed for construction costs may be ascertained, provided that no partial payment shall be made on any bond.

6. (a) The Municipality hereby leases to the Company the improvement to be constructed and acquired for a period of twenty-five (25) years from the date of the completion of the improvement.

(b) The Municipality shall deliver to the Company the improvement when it has been completed and inspected and approved by the Company, as conforming satisfactorily with the plans and specifications and all contracts and documents relating thereto.

(c) The Company shall use the improvement for the distribution of natural gas to the public of the Municipality and of the rural areas adjacent to the improvement which may be conveniently and economically served.

(d) The Company shall operate and maintain during the term of this agreement in accordance with the standards of operation and maintenance said improvement. The maintenance said improvement shall include, without limitation, the keeping of the same in good repair and the making of the necessary capital replacements therein or additions or extensions thereto. All repairs and replacements shall be at least equal to the

material and standard for workmanlike used in the original construction.

(e) The duly authorized representatives of the Municipality shall have the right to inspect said improvement at all reasonable times for the purpose of ascertaining whether it is being operated and maintained in accordance with the terms of this agreement.

(f) The Municipality shall keep and maintain, or cause to be kept and maintained, complete accounting records of the cost of construction of said improvement in accordance with the Uniform System of Accounts of the Arkansas Public Service Commission, available for inspection by the Company or its authorized representatives at all reasonable times. The Company shall keep and maintain, or cause to be kept and maintained, complete accounting records of the improvement and its operations in accordance with said Uniform System of Accounts, including, without limitation, the records of all capital replacements and retirements and the cost of operation and maintenance of the same, which shall be available for inspection by the duly authorized representatives of the Municipality at all reasonable times.

7. The Company shall, at its expense, carry adequate public liability insurance, and pay ad valorem taxes levied against the property of said improvement, and all costs of operation, maintenance, replacements, necessary additions and extensions of said improvement, acting after completion thereof by the Municipality and its acceptance by the Company. The cost of replacements of units of the improvement, as originally constructed and delivered by the Municipality, shall be taken from the funds accrued in the reserve for replacements as hereinafter provided, and the material salvaged from such replacements, less cost of removal, shall be credited to the said reserve for replacements at the net salvage value of such materials at the time the replacement is made.

8. The Company shall pay the Municipality as rental for the improvement the amount required to pay principal, interest, and fees of paying agent on the aforesaid bonds, fifteen (15) days in advance of the due date thereof, as shown by the schedule identified by the mayor of the Municipality and the officer of the Company executing this agreement and attached hereto as Exhibit "C", the amount of the first payment being in the amount of interest due on the 1st day of September, 1938, together with paying agent's fees on the amount of such interest. The amount so paid by the Company as rental for the improvement shall be used by the Municipality for the purpose only (and no other) of paying principal, interest, and paying agent's fees on the aforesaid bonds.

9. In the event default shall be made by the Company in performance of any of the covenants herein contained and such default shall continue for thirty (30) days after notice thereof in writing shall be given by the Municipality, then and in that event the Municipality may enter upon the improvement in possession of the Company under the terms of this agreement, with or without process of law, to take possession hereof together with any repairs, replacements, additions, extensions, or alterations which have been made a part thereof, and operate and maintain the improvement so long as such default continues, and in addition to any unpaid rental at the time Municipality takes possession of improvement, the Company shall be liable thereafter to the Municipality for the operation and maintenance expense incurred by Municipality, plus the rental payments as before provided, less the gross revenue received by the Municipality. The Company shall have the right to resume the operation and maintenance of the improvement under the terms of this lease at any time during the period thereof by payment to the Municipality of all amounts due under the terms hereof, and by correcting any other defaults.

10. The Municipality hereby grants to the Company the exclusive right, at the option of the Company, to purchase the improvement at any time during the term of this agreement and lease; such purchase may be made by the Company, at its election, entirely for cash, or partly by cash and partly on credit, all as is more particularly hereinafter set forth. In the event the Company shall be in default as to any amount due under this agreement prior to the time it shall exercise its option to purchase, the Company shall be required before exercising its option, to pay any amount due under the terms of this agreement.

In the event the Company shall exercise its purchase option by paying cash, the purchase price shall be (a) the balance then remaining in the reserve for replacements as hereinafter provided, plus (b) an amount equal to the then outstanding principal of the bonds issued for the construction of the improvement, (c) any other secured indebtedness against the improvement, and (d) such amount in respect of redemption premiums, accrued and unpaid interest, and charges as will when added to the principal of said bonds and other secured indebtedness, enable the Municipality promptly to call, redeem, and pay off said bonds and any other secured indebtedness. The Company shall be obligated to purchase for cash, the Municipality, after receiving the purchase price, shall promptly redeem, pay and discharge all of the said outstanding bonds and any other secured indebtedness against the improvement, and secure a satisfaction of any liens on account thereof.

In the event the Company shall

exercise its purchase option by paying partly in cash and partly in installments, it shall pay in cash to the Municipality the balance then remaining in the reserve for replacements as hereinafter provided; and for the balance of the purchase price it shall undertake to pay to the Municipality, at the times and in the amounts as shown on the attached Exhibit "C", such amounts as will enable the Municipality promptly to pay and discharge the principal and accruing interest of the then outstanding bonds and of any other secured indebtedness against the improvement as they mature, plus such amount in respect of paying charges as the Municipality may incur.

11. The Municipality's proportion of the estimated cost of that part of the improvement constituting the transmission line shown in Exhibit "A" is \$142,448 (exact amount) to be determined finally upon the completion of the project; and for this investment the Municipality will own an undivided 80.577 percentage of the transmission line from Point A to Point B. If the Company exercises its option to purchase from the Municipality, the Municipality will convey to the Company by special warranty deed all the Municipality's right, title and interest in the transmission line.

12. The Company shall accrue a reserve for replacement annually equal to one (1) per cent of the original cost of the depreciable portion of the improvement at the time it is delivered to the Company by the Municipality. The balance remaining in this reserve at any time the Company elects to exercise its option to purchase shall be paid to the Municipality as hereinafter provided. In addition to the accrual of the aforesaid reserve for replacements, the Company shall accrue annually, on the original cost of any additions and extensions to the improvement made by it, a depreciation reserve at such rates as it may accrue depreciation annually on its other properties of like character. The balance remaining in this reserve at any time the Company may exercise its option to purchase shall not be paid to the Municipality.

13. In the event the Company does not exercise its option to purchase and the improvement is returned to the Municipality on the expiration of the lease, or earlier for any cause, it shall be delivered in as good condition, as when received by the Company, from the Municipality, usual and ordinary wear and tear and deterioration excepted, and the Company shall pay to the Municipality the balance then remaining in the replacement reserve, and shall be paid by the Municipality the original cost of any additions and extensions to the improvement made by it, less the amount then remaining in the depreciation reserve accumulated at the rates at which it accrues depreciation on like property.

14. The Municipality agrees upon notice by the Company of its election to exercise its rights of purchase hereunder and upon compliance by the Company with the conditions herein provided for the exercise of such right, to transfer and convey to the Company in the manner provided by, and subject to, applicable laws then existing, title to the improvement either (1) free and clear of all liens and encumbrances whatsoever; or (2) if the Company so elects, subject to the then balance due upon said indebtedness, against said improvement; and the lien securing the same; and to execute, acknowledge and deliver all instruments, conveyances and assignments, and to take, or cause to be taken, all such further action as may be reasonable and required by the Company to effectuate the transfer.

15. Either party hereto may waive its rights with respect to default or any other matter arising in connection with agreement but such waiver shall not be deemed to be a waiver with respect to any subsequent default or matter.

16. Any written notice, demand or request required or authorized by this agreement shall be deemed properly given to or served upon the Company if mailed to its home office, Shreveport, Louisiana, and shall be deemed properly given to or served upon the Municipality if mailed to the mayor thereof. The designation of the person to be notified or the address of such person may be changed at any time and from time to time by similar notice.

17. This agreement is not to be binding upon the parties hereto until:

(a) Approved by the regulatory authorities having jurisdiction in the premises;

(b) The Municipality has granted the Company a valid franchise to operate the natural gas system therein;

(c) The Municipality has taken all steps required by, and has fully complied with, all of the provisions of Section 19-3907 of the 1947 Statutes of Arkansas authorizing a sale of the improvement to the Company;

(d) The Municipality has adopted a valid ordinance regulating the installation of natural gas service, and provided specifications therefor fittings and for appliances, and for inspection of gas piping and appliances;

(e) Other municipalities shown on Exhibit "A" have entered into similar agreements and have complied with the conditions in (1), (2), (3) and (4) of this paragraph.

18. This agreement shall not be assigned by either party in whole or part without the written consent of the other party, except that it may be assigned by the Company in connection with reorganization, merger or sale of its assets and properties.

IN WITNESS WHEREOF, the Municipality has caused this

agreement and lease to be signed in its corporate name and its corporate seal hereunto affixed and attested to by its officers thereunto duly authorized; and the Company has signed its corporate name and its corporate seal has been affixed hereto and attested to by the officers thereunto duly authorized, all of the day and year first above written.

City of Blevins, Arkansas
Harold M. Stephens,
Mayor

Attest:
Mrs. Herman Brown
Recorder

EXHIBIT A IS A MAP OF PROPOSED TRANSMISSION LINE FROM A POINT ON ARKANSAS LOUISIANA GAS COMPANY'S TRANSMISSION LINE "A" TO BLEVINS & McCASKILL, ARKANSAS.
Honorable Mayor and City Council of the City of Blevins, Arkansas Gentlemen:

We understand that the City of Blevins needs to issue approximately \$210,500 gas revenue bonds to finance the building of a gas distribution system and its related facilities. We also understand that the Arkansas Louisiana Gas Company will lease this pipeline and distribution system, and if such a lease can be made between the Arkansas Louisiana Gas Company and the City of Blevins, which is acceptable to us, we offer the following contract for your consideration:

1. We will cooperate with the Town Officials in calculating and determining the proper maturity schedule and redemption provisions for the proposed bonds and all other details relative to the security provisions and financial aspects of the issue.

2. We will employ a recognized municipal bond counsel to prepare the necessary ordinance and/or resolutions, and will pay for the approving opinion of such municipal bond counsel.

3. It is mutually understood and agreed that the City will adopt all necessary ordinances and/or resolutions pertaining to the issuance of the bonds in such forms as are satisfactory to the retained municipal bond counsel and will take such other steps as such counsel may require to enable them to render an unqualified opinion upon the legality of the authorization, issuance, and delivery of the bonds.

4. We agree to pay the expense of the printing, trustee and approving the bonds and you agree to deliver the bonds to us at a price of par and accrued interest for bonds bearing interest rate of 4 1/2% on or before June 1, 1938, renewal to be at our option.

5. If at any time prior to the delivery of the bonds the City finds it is not necessary to sell the entire issue of \$210,500 Gas Revenue Bonds, we agree to purchase any portion of the bond issue the City desires to sell, subject to the above mentioned terms and conditions.

Yours very truly,
T. J. RANEY & SONS,
By/S/Robert W. Raney
Accepted This THE 12TH DAY of December, 1937.

Legal Notice

ORDINANCE NO. 31
AN ORDINANCE GRANTING ARKANSAS LOUISIANA GAS COMPANY THE RIGHT TO CONSTRUCT, MAINTAIN AND OPERATE A NATURAL GAS DISTRIBUTION SYSTEM AND TO USE THE PUBLIC STREETS AND PUBLIC GROUNDS FOR THAT PURPOSE.

BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF BLEVINS, ARKANSAS:

That Arkansas Louisiana Gas Company, its successors and assigns, hereinafter called "Grantee" are hereby granted the right to construct, maintain and operate in this Municipality a system for the transportation, distribution and sale of natural gas and to use, and excavate in, the public streets, sidewalks, alleys and grounds for that purpose, for the period provided by law.

The system shall be installed and operated in a workmanlike manner, and this Municipality shall be held harmless from any damages caused by the negligence of Grantee's employees in the course of their employment. Grantee shall be responsible for the cost of all excavations, street, sidewalks and alleys wherever practical in laying and replacing mains. Grantee shall refill its excavations and restore sidewalks and pavements promptly, and if this is not done within a reasonable time then it may be done by this Municipality at Grantee's expense. Grantee's lines shall be laid so as not to interfere with present sewer system, and if a new sewer line crosses Grantee's pipeline at the same level, then this Municipality may, if Grantee has not done so after the reasonable notice, raise or lower the Grantee's line at Grantee's expense but only under Grantee's supervision. This Municipality may inspect Grantee's construction work at any time, or have said work inspected by a qualified engineer.

Grantee shall deliver gas to the consumer at the curb line, or within 10 feet of the property line where no curb line has been determined, and all service pipes and facilities necessary to receive and utilize the gas at that point shall be furnished and maintained by the consumer, except that Grantee shall furnish and connect the gas meter. Title of all equipment installed by Grantee shall remain in Grantee. Grantee shall extend its mains to serve new customers where reasonably assured or enough new customers and revenues therefrom justify the capital expenditure necessary to establish the service. Grantee may promulgate and enforce reasonable rules, regulations and requirements governing the sale, delivery, receipt and use of gas furnished by Grantee and the

multiple unit building.

tion where gas is used on a consumer premises.

(H) "Gas Inspector" shall refer to the person occupying the position of "Gas Inspector" for the Municipality, as hereinafter in Section 3 hereof more particularly described.

(I) "Service line" shall refer to the consumer's gas pipeline extending from the point of connection with utility supply to the service meter located on the consumer premises.

(J) "House piping" shall refer to the system of gas piping, either exposed or concealed, which conveys gas from the outlet of the service meter to outlets and appliances at various places on a consumer premises.

(K) "Service stub" shall refer to the gas piping from the utility's main to the point of connection with consumer's service line.

(L) "Appliance" shall refer to any appliance in which gas is consumed.

(M) "Automatically controlled appliances" shall refer to appliances to which the gas supply is automatically turned on and off in accordance with the demand for heat, but does not include appliances with devices or controls governing the supply of gas to the main burner which cannot automatically reduce the gas supply below thirty per cent of the input rating.

SECTION 2. Conformance Required. All service lines, house piping, and appliances in this Municipality shall conform to and shall be installed and connected in accordance with the standards and specifications hereinafter fixed.

SECTION 3. Enforcement. (A) Gas Inspector. There is hereby created the office of "Gas Inspector" for this Municipality. The said Gas Inspector shall perform the duties and functions hereinafter appearing.

(B) Inspection. (1) The Gas Inspector shall inspect all service lines, house piping and appliances after the installation and connection thereof before the gas supply has been turned on, in order to determine whether there has been conformance with the provisions of this Ordinance.

(2) Where no natural gas has been used in a structure within the twelve months preceding the date upon which gas service is desired the Gas Inspector shall inspect all service lines, house piping and appliances in and to such structure before the gas supply thereto may be turned on again.

(3) The Gas Inspector shall have the right to make such other inspections from time to time as may be necessary to determine the conditions of facilities in use in any consumer premises, and if he has reason to believe that any service lines, house piping, or appliances in use in any consumer premises or structure are in a dangerous and unsafe condition, it shall be his duty to inspect same promptly. Whenever, in the Gas Inspector's judgment, any service lines, house piping, or appliances in use in any consumer premises or structure are in dangerous and unsafe condition, he shall immediately notify the responsible person, firm, business association, agency, or corporation of such fact, and shall shut off, or cause to be shut off, all gas service to the consumer premises or structure involved until the necessary repairs have been made; the Gas Inspector shall inspect all such facilities after the necessary repairs thereto have been completed, and it shall be unlawful to use same after the aforesaid notice of their condition has been given by the Gas Inspector until after they have been thus repaired and inspected and a new Certificate of Approval issued in respect thereof.

(4) The Gas Inspector shall have authority to enter any consumer premises and structure in this Municipality where gas is used, for the purposes of making the inspections herein contemplated.

(5) Upon the completion of each construction, installation, or repair job in respect of which a Certificate of Approval from the Gas Inspector is necessary hereunder, the responsible gas fitter in charge of the work shall cap, or cause to be capped, all outlets and shall notify the Gas Inspector that the job is ready for inspection; the said gas fitter shall use due care to see that the work has been properly completed and is in fact ready for inspection before notifying the Gas Inspector, in order to avoid unnecessary inspection trips.

Certificate of Approval. Whenever the facility or facilities inspected by the Gas Inspector in accordance with the provisions of Subsection 3 (B) above are found to comply with this Ordinance, it shall be the duty of the Gas Inspector, after the payment of the inspection fee as hereinafter provided, to issue a "Certificate of Approval" certifying to such fact.

(2) A Certificate of Approval shall be issued in quadruplicate, and it shall be the duty of the Gas Inspector to deliver, or to cause to be delivered, one copy thereof to the responsible gas fitter in charge of the work, one copy to the utility serving the consumer premises involved, and one copy to the responsible person, firm, business association, agency, or corporation applying for the gas service. The fourth copy shall be filed in the office of the Gas Inspector.

(3) A Certificate of Approval shall be required before a utility serves gas to a particular consumer premises or structure, in the following instances:

(a) For all service lines and house piping hereafter installed in this Municipality;

(b) For all service lines and house piping in which no natural gas has been used within the last twelve months preceding the date upon which gas service is desired;

(c) For appliances connected to any service lines and house piping for which a Certificate of Approval is required under the provisions of this Ordinance.

(d) For all service lines and house piping in which no natural gas has been used within the last twelve months preceding the date upon which gas service is desired.

(e) For appliances connected to any service lines and house piping for which a Certificate of Approval is required under the provisions of this Ordinance.

(f) For all service lines and house piping in which no natural gas has been used within the last twelve months preceding the date upon which gas service is desired.

ing for which a Certificate of Approval is required under the provisions of this Ordinance.

(d) For service lines, house piping, and appliances, in respect of which the gas service has been discontinued consequent upon the Gas Inspector's condition existing, and the completion of the repairs necessitated by such finding.

(4) Prior to the issuance of a Certificate of Approval hereunder, an inspection fee shall be paid to the Municipal Secretary in accordance with the following:

(a) 8 gas outlets, or less, two dollars (\$2.00); 9, 10, or 11 outlets, three dollars (\$3.00); 12, 13, or 14 outlets, four dollars (\$4.00); 15, 16, or 17 outlets, five dollars (\$5.00); 18, 19, or 20 outlets, six dollars (\$6.00).

(b) If any service line, house piping or appliance does not in the judgment of the Gas Inspector meet the standards and specifications herein set forth and, accordingly, an additional inspection trip or trips to the premises involved is necessary, an additional fee of fifty cents (0.50) for each additional trip shall be collected.

SECTION 4. Gas Fitters. (A) License. No individual shall engage in the occupation of business of installing and connecting service lines, house piping and appliances (herein sometimes referred to as "gas fitting") in this Municipality unless there has been issued to such individual a valid and currently effective gas fitting license. This license shall be issued by the Municipal Secretary, and only to applicants who satisfactorily establish their qualifications and ability. The Municipal Secretary shall be the sole judge of the applicant's qualifications and shall have the right to require such proofs and references as to an applicant's ability in this field as the Secretary may in

Ordinance No. 32

Continued from Page Four

the manufacturer of the appliance. Vent pipes, heater connections, or other appurtenances to gas appliances in use prior to conversion from liquid gas to natural gas shall be altered or replaced in a manner that will conform to the specifications and construction standards hereinafter fixed.

SECTION 7. Specifications for material and rules governing installation of service lines:

(A) All pipe shall be new, standard, full weight, wrought iron or steel, free from defects; copper pipe may be used subject to the further provision of Section 9 of this Ordinance.

(B) All fittings shall be of best quality malleable iron. No cast iron fittings shall be used.

(C) No bushings, union globe valves or all-brass stop cocks shall be used.

(D) The service line shall be at least one inch (1") in diameter if the utility's system to which it is connected is a medium pressure system requiring use of service regulator or service riser, and at least one and one-quarter inches (1 1/4") in diameter if the utility's system to which it is connected is a low pressure system not requiring use of service regulator or service riser. If the consumer's gas requirements will be greater than that of an ordinary domestic consumer, the utility's representative should be consulted before installation for the proper size of service line.

(E) Where ever possible, the service line shall be laid at a right angle to utility main in a trench sloping from the meter loop to the street, and at no point shall it be lower than the connection with the utility's line. It shall not contain any traps or unnecessary risers, tees or elbows. In the event that the consumer's premises are lower than the point of connection with the utility's line, a properly constructed and equipped drip shall be installed at the bottom of the riser below the meter loop or at the lowest point on the service line.

(F) When the service line from the service stub to the structure exceeds one hundred feet (100') the loop shall be installed at the property line and in a protected location. Curb meters will be installed only for business structures occupying entire land on which located.

(G) Meter loops shall be installed according to the following standards:

(1) When the consumer premises to be supplied requires an extraordinary amount of gas, the standard specifications of the utility supplying the meter loop shall be used and complied with.

(2) When required for a residential structure, or a consumer premises using an equivalent amount of gas, the meter loop shall be installed in accordance with the following standards:

(a) Meter loops shall be installed outside the structure to be supplied. When more than one meter is required for a structure, loops shall be constructed in manifold. When more than two meters are required, the header for loops shall be not less than two inches (2") in size. All meter loops shall be constructed with the outlet for meter loop (2) above gas permanent ground level surrounding the meter loop. The meter riser shall be not less than two inches (2") from the outside of the wall of structure unless installed at property line as in Section 7 (F) above provided.

(b) Meter riser shall be connected to service line with a swing joint, consisting of one ell and a street ell located at a point not less than twelve inches (12") below the permanent ground level. Meter riser shall be equipped with a standard lock wing iron body brass core master stop cock installed six inches (6") above permanent ground level. Service regulators shall be furnished by the utility when required, and shall be installed on the outlet side of lock wing master stop cock on service riser. When manifold meter loops are constructed, a master stop cock shall be installed on both service riser, an ell for each meter loop. Meter loops shall be installed according to specifications furnished by the utility.

SECTION 8. Specifications for material and rules governing installation of house piping:

(A) All pipe shall be standard, full weight, wrought iron or steel, free from defects; copper pipe may be used subject to the further provisions of Section 9 of this Ordinance.

(B) All fittings shall be best quality malleable iron. No cast iron fittings shall be used.

(C) No bushings, easel unions, globe valves or all-brass stop cocks shall be used.

(D) No rubber hose and no non-metallic connections shall be used.

(E) No valves or unions shall be placed in an inaccessible place.

(F) The minimum pipe size to be installed from meter to appliance riser for supplying heaters and cooking stoves, ranges, hot water heaters, gas logs and other appliances of the ordinary and usual type and size shall be as follows:

(1) For one appliance, one and one-quarter (1 1/4") inch for the first and second, one (1") inch for third, and three-quarters (3/4") inch to fourth.

(2) For three or four appliances, one and one-quarter (1 1/4") inch for first, second and third, and three-quarters (3/4") inch for fourth.

(3) For five or six appliances, one and one-quarter (1 1/4") inch for first, second and third, and three-quarters (3/4") inch for fourth and fifth.

(4) For seven or eight appliances, one and one-quarter (1 1/4") inch for first, second, third and fourth, and three-quarters (3/4") inch for fifth and sixth.

(5) For nine or ten appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth and fifth, and three-quarters (3/4") inch for sixth and seventh.

(6) For eleven or twelve appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth, fifth and sixth, and three-quarters (3/4") inch for seventh and eighth.

(7) For thirteen or fourteen appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth, fifth, sixth and seventh, and three-quarters (3/4") inch for eighth and ninth.

(8) For fifteen or sixteen appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth, fifth, sixth, seventh and eighth, and three-quarters (3/4") inch for ninth and tenth.

(9) For seventeen or eighteen appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth, fifth, sixth, seventh, eighth and ninth, and three-quarters (3/4") inch for tenth and eleventh.

(10) For nineteen or twenty appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth, fifth, sixth, seventh, eighth, ninth and tenth, and three-quarters (3/4") inch for eleventh and twelfth.

(11) For twenty-one or twenty-two appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth, fifth, sixth, seventh, eighth, ninth, tenth and eleventh, and three-quarters (3/4") inch for twelfth and thirteenth.

(12) For twenty-three or twenty-four appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth, fifth, sixth, seventh, eighth, ninth, tenth, eleventh and twelfth, and three-quarters (3/4") inch for thirteenth and fourteenth.

(13) For twenty-five or twenty-six appliances, one and one-quarter (1 1/4") inch for first, second, third, fourth, fifth, sixth, seventh, eighth, ninth, tenth, eleventh, twelfth and thirteenth, and three-quarters (3/4") inch for fourteenth and fifteenth.

and three-quarters (3/4") inch to seventh and eighth.

(5) If more than eight openings are required, or if furnaces, small boilers, or other large or unusual appliances are to be installed, the utility shall be requested to furnish piping requirements specifications.

(6) Risers or ceiling gas pipes or fixtures shall not be less than the gas manifold pipe size on the appliance, except that the riser to any appliance shall not be less than one-half (1/2") inch in size.

(7) All outlets or risers for connections of appliances must project beyond the surface of the wall, ceiling, floor or baseboard at least two inches (2") and must be securely fastened. Where appliances are not connected, said outlets or risers shall be left securely capped.

(8) No house piping shall be installed in, or in the soil immediately under, concrete floors or walls where it can be avoided. If it is unavoidable, the house piping shall be installed in a suitable casing, properly sealed, which will permit it to be readily removed for repairs in case leakage develops.

(9) All house piping shall be rigidly fastened to the building to prevent its being moved or broken.

(10) All pipe and pipe fitting must be made up tight with an approved pipe joint cement or white lead.

SECTION 9. Copper Pipe.

(A) Service lines. When a service line is constructed with copper pipe, hard copper (Type "K") shall be installed in the following manner:

(1) The pipe shall be laid according to the sizes and standards required for steel pipe. Particular attention shall be given to eliminating all traps or sags and avoiding the use of soft copper pipe for gas service pipes.

(2) Meter risers of copper service shall be constructed with steel pipe and according to size and specifications for steel pipe risers. Swing joints shall be installed with twelve-inch (12") steel nipples between street ells to provide rigidity for meter loop. Swing joint connection shall be not less than one foot (1') in depth.

(3) Utility may furnish an insulating device which shall be installed in the meter riser above the standard lock wing, iron bodied, brass core, stop cock, or, at its option, utility may install an insulating device at the time the meter is installed.

(B) House piping. When copper pipe is used for house piping, the following specifications shall be followed:

(1) The meter loop and pipe shall be secured and rigidly connected to the structure supplied.

(2) Pipe shall be laid according to the size and standards required for steel pipe. Hard copper pipe (Type "K") with threaded or soldered joints is preferred to soft copper pipe (Type "L").

(3) All appliances supplied from soft copper pipe (Type "L") shall be connected to steel or hard copper risers. Risers shall be equipped with threaded caps above floor and connected with soft copper house pipe with a standard malleable iron screw wall tee. The wall tee shall be firmly secured to structure with screws and not nails.

(4) Pipe shall be securely fastened to structure with suitable steel hangers.

SECTION 10. Specifications for material and rules governing installation of appliances:

(A) All appliances and all devices, attachments and accessories to them shall be of standard make and manufacture and shall conform to the usual and ordinary standards required for safe operation.

(B) No device or attachment shall be installed on any appliance which may in any way impair the combustion of the gas.

(C) No devices employing or depending upon an electrical current shall be used to control or ignite a gas supply if of such a character that failure of the electrical current could result in the escape of unburned gas or in failure to reduce the supply of gas under conditions which could normally result in its reduction unless other means are provided to prevent the development of dangerous temperatures, pressures or the escape of gas.

(D) Appliances shall be adequately supported and so connected to the piping as not to exert undue strain on the connection.

(E) No appliance shall be installed in a room in which the facilities for ventilation do not permit the proper combustion of gas under normal conditions of use.

(F) Water heaters shall not be installed in bathrooms and bedrooms. However, water heaters of the automatic storage type may be installed as a replacement in a bathroom when specifically authorized by the Gas Inspector, providing they are properly vented and are supplied with adequate combustion air.

(G) A gas cock or shut-off shall be easily accessible and within convenient reaching distance when lighting the burner.

(H) When air or oxygen under pressure is used in connection with any gas supply, effective means shall be provided to prevent the air or oxygen from going back into the gas piping.

(I) The location of gas lighting fixtures shall be such as not to constitute a fire hazard to persons or property. All such fixtures less than five feet (5') from plastered ceilings or overhead woodwork or closer than five inches (5") from plastered walls or woodwork shall be protected by shields.

(J) No swinging or folding gas brackets or gas appliances shall be installed so that their continued operation will not raise the temperature of surrounding combustible material or construction more than

90 degrees Fahrenheit above normal room temperature.

(L) Gas appliances shall be located so that they will be readily accessible for operation, repair and adjustment.

(M) Appliances with closed bases in which no provision is made for the circulation of air below the burner boxes shall be properly insulated from combustible floors.

(N) No appliances shall be connected with flexible tubing except such which are necessarily portable or have to be moved from place to place or which require a vibration joint, in which cases, the installation shall conform to the usual and ordinary standards required for safe operation.

(O) Ranges, water heaters, space heaters, clothes dryers, incinerators, wall heaters, etc., shall not be installed in rooms where the facilities for ventilation do not permit proper combustion of the gas under normal conditions of use. Appliances of this character shall be designed with a heat deflector or burner box to prevent incandescent particles of dust, carbon, etc., from falling to the floor and igniting combustible material.

(P) No water heating appliance shall be installed in a closed system of water piping, unless a water pressure relief valve is provided.

(Q) Installations of gas fired, single register, floor furnaces shall conform to the following specifications:

(1) A flue connection which shall conform to the ordinary accepted standards for safe operation shall be required.

(2) Where installations are in lowest floors of buildings without basement, ample clearance must be made, and neither the flue pipe nor furnace casing shall be in contact with earth or damp material, and the furnace must be protected from the possibilities of being flooded with water.

(3) No furnace shall be installed in the floor of any aisle or passageway of any auditorium public assembly room, public hall, or egress from any such room or space.

(4) All furnaces shall be equipped with a gas pressure regulator, which shall be adjusted so the gas input does not exceed the approved input rating.

(5) If automatic operation of floor furnaces is desired, care must be taken that a model designed for use with an automatic pilot is employed. No automatic pilot shall be installed in the field or a floor furnace that has not been designed for such equipment. Automatic safety pilots are recommended for all floor furnaces.

(6) The installation of gas fired boilers, furnaces, and conversion burners for house heating shall conform to the standards usually and ordinarily required for safe operation.

(7) Flue connections which shall conform to the usual and ordinary standards required for safe operation shall be required for the following:

(1) Domestic appliances with input rating in excess of 50,000 BTU per hour, except domestic gas ranges.

(2) Automatically controlled appliances (as defined in Section 1) with input rating in excess of 5,000 BTU per hour, except automatic instantaneous water heaters of the single faucet type, where the single faucet is attached to and made a part of the appliance.

(3) Automatically controlled appliances with input rating less than 5,000 BTU per hour, unless equipped with an automatic device to prevent the escape for unburned gas at the main burner or burners.

(4) Each of several appliances, except domestic gas ranges, installed in the same room, which in the aggregate have an input rating as great as 30 BTU per hour per cubic foot of room content.

(5) All water heaters except those exempted in Section 9 (S) (2) above.

(6) Space heaters in sleeping quarters for use of transients. Such heaters should also be equipped with an automatic pilot which will effect ignition of the main burner and which, unless it is in operation, will shut off the entire gas supply to the appliance.

(7) All house heating steam and hot water boilers and warm air furnaces, including floor furnaces.

SECTION 11. It shall be unlawful for any person, firm, business association, agency or corporation:

(A) To tap, break, damage, molest, or tamper with any gas pipes, lines, meters, regulators, or appliances, or any appurtenances, or attachments, or connections, or to seal on any of same, owned by any utility serving this Municipality, or to interfere with the operation of such utility's gas system, and each day any violation of this clause continues shall be deemed a separate offense.

(B) To steal gas from any pipe or fixture exposed, furnishing or making available to any consumer a supply of gas, whether or not such pipe or fixture is owned by the utility supplying or distributing such gas, or to install or cause to be installed any piping, tube, hose or other device whatsoever, for the purpose of stealing gas or deflecting the flow of gas around a meter.

(C) To turn on valves, break seals on meter cocks, or do any other act the purpose of which is to cause or attempt to cause a resumption of the flow of gas which has been stopped or shut off by the utility supplying the same; and the existence of any by-pass pipe or other device on or about the pipes or equipment installed or legally used by the utility in furnishing or measuring gas to consumers, or of any device or tampering with any gas pipes, lines, meters, regulators, or other appurtenances, or equipment, or interfering with proper use of such equipment for measuring or controlling the flow of gas, shall constitute prima facie evidence of knowledge on the part of the responsible person, firm, business association, agency, or corporation having custody or control of the premises where such device or damage is located, of the existence thereof and shall be taken as evidence of the intent to unlawfully take or steal gas, and shall bring such person, firm, business association, agency, or corporation prima facie within the scope, meaning, and penalties of this Ordinance.

SECTION 12. Penalty. Any person, firm, business association, agency, or corporation failing, refusing or neglecting to comply with the requirements of, or otherwise violating the provisions of, this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof in a court of competent jurisdiction, shall be fined a sum not less than Five (\$5.00) Dollars nor more than Twenty-five (\$25.00) Dollars.

SECTION 13. State Law. To the extent that any provisions hereof may conflict with the requirements of any valid laws, rules, and regulations of any other governmental or regulatory authority having jurisdiction, such other laws, rules, and regulations shall prevail.

SECTION 14. Separability. The provisions hereof are intended to be separate and severable, and should any portion hereof be held invalid, such holding shall not affect the remaining portions which shall remain in effect.

SECTION 15. Repealing clause. All ordinances or parts of ordinances in conflict herewith are hereby repealed.

SECTION 16. Emergency. Since this Ordinance is primarily concerned with the safety of the inhabitants of this Municipality insofar as concerns the safe and efficient service, receipt and use of natural gas, and since this Municipality is now without such a safety ordinance, an emergency is hereby declared and this Ordinance shall be in full force and effect from and after the date of its passage.

PASSED AND APPROVED this 13 day of February, 1958.

Legal Notice

RESOLUTION NO. —
A RESOLUTION FINDING THAT OWNERS OF MORE THAN A MAJORITY IN VALUE OF REAL PROPERTY WITHIN THE CITY OF BLEVINS, ARKANSAS ASK THAT THE PROPOSED NATURAL GAS DISTRIBUTION SYSTEM AND ITS RELATED FACILITIES TO BE CONSTRUCTED BY THE CITY OF BLEVINS, BE LEASED TO ARKANSAS LOUISIANA GAS COMPANY, WITH AN OPTION TO PURCHASE.

WHEREAS persons claiming to be the owners of more than a majority in value of the real property within the City of Blevins, Arkansas, as shown by the last County assessment, have filed a petition asking that the proposed natural gas distribution system and its related facilities to be constructed by the City of Blevins, Arkansas, be leased to Arkansas Louisiana Gas Company, with an option to purchase the leased properties for a purchase price equal to at least an amount sufficient to pay in full the Gas Transmission and Distribution System Revenue Construction Bonds of the City of Blevins, Arkansas, and all other charges payable on account thereof then outstanding at the time the said option is exercised, and any other secured indebtedness against the leased properties then existing; and

WHEREAS after due notice, as required by law, the Council of the City of Blevins, Arkansas, has heard all persons desiring to be heard and has ascertained that said petition was signed by persons owning more than a majority in value of the real property within the City of Blevins, as shown by the last County assessment;

NOW, THEREFORE, BE IT RESOLVED BY THE COUNCIL OF THE CITY OF BLEVINS, ARKANSAS:

Section 1. It is hereby found and declared to be the will of the persons owning more than a majority in value of the real property within the City of Blevins that the proposed natural gas distribution system and its related facilities to be constructed by the City of Blevins, Arkansas, be leased to the Arkansas Louisiana Gas Company, with an option to purchase the leased properties for a purchase price equal to at least an amount sufficient to pay in full the Gas Transmission and Distribution System Revenue Construction Bonds of the City of Blevins, Arkansas, and all charges payable on account thereof then outstanding at the time the said option is exercised, and any other secured indebtedness against the leased properties then outstanding.

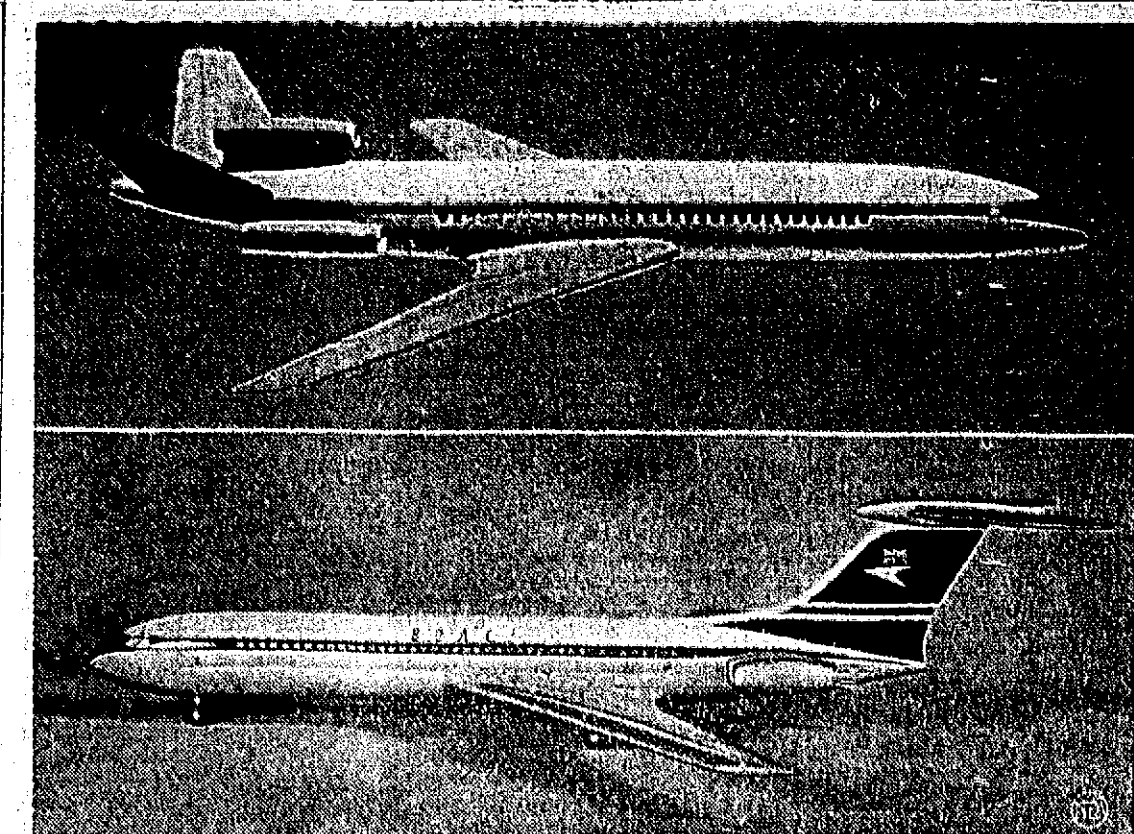

Section 2. It is ascertained and declared that the lack of a distribution system for natural gas to serve the inhabitants of the City of Blevins subjects the City to greater fire hazards and greatly endangers the life, health and property of the inhabitants thereof, and that it is necessary for the City of Blevins to immediately construct a distribution system for natural gas in order that the life, health and property of its inhabitants may be protected and preserved, and this resolution is essential to the immediate accomplishment of said construction, it is therefore, declared that an emergency exists and that this resolution being necessary for the immediate preservation of the public peace, health and safety shall take effect from and after the date of its passage.

FEB. 22, 1958

ENGINES IN THE REAR—British aircraft designers have scored another advance over the U.S. aviation industry with two production models of jet transports in which all engines are mounted on the tail. They are the Vickers VC-10 (bottom photo) with four Rolls-Royce Conway engines rear-mounted in pairs on each side of the fuselage, and the AVRO 740 (top photo) with three smaller Rolls-Royce Conway engines rear-mounted, one on each side and one on the top of the fuselage. Thirty-five of the VC-10's have been ordered by British Overseas Airways for its international, overseas routes. The AVRO 740 is being considered for use on British European Airways routes. U.S. aircraft companies have considered rear-mounting, but no company has yet adopted it. Rear-mounting offers the advantage of putting vibration and noise at the tail of the plane.

FOR THE INDIGENT SICK—One of the world's largest, and probably the most advanced hospital for the treatment of indigent sick, the Allegheny County Hospital, eight miles from downtown Pittsburgh, will soon be ready to receive patients. The \$22-million-dollar project, which will provide beds for 2,300 patients, stands on a park-like 120-acre plateau. The main building, right, has eight stories, and two convalescent wings of three stories each. Special wards for ambulatory patients are located in building at left. Contributing to the patients' spiritual health while hospitalized is the pyramid-like interdenominational church, left center.

Local School Honor Roll Announced

Junior High Honor Roll

The 7th grade leads the Junior High in both the "A" nine weeks and semester honor rolls and in the merit nine weeks and semester rolls with 10 on the "A" honor rolls to the 8th grade's 5, and with 31 on the semester merit roll to the 8th grade's 20. The 7th grade had 26 on the nine weeks merit roll while the 8th grade had 24.

Those on the nine weeks and semester "A" honor roll for the 7th grade were: Cherry Anderson, Mary Ann Bealy, Mary Alice Caston, Jan Ellis, Vince Foster, Sharon Kay Green, Jan Grigg, Jean Page, Barbara Reese, and Patsy Smith.

Those on the 7th grade merit roll were: Mickey Baber, Glenda Payne Ball, Charles Boyerley, Howard Byers, Jennifer Cox, Joy Ann Davis, Larry Emory, Mary Frances Fields, Patricia Goodwin, Mike Hudspeth, Mary Beth Jackson, Linda Gail Johnson, Dora Ann King, Jeanie Lowe, Carolyn McMillan, Janice Martin, Ruth Ann Mohon, Joe Mosley, Barbara O'Steen, Tonye Power, Patricia Rogers, Caroline Rogers, John Schooley, Karen Shepherd, Donna Stevenson, Janet Terrell, David Waddie, Beverly Walters, Ginny Warren, Sonya Yates, Kendall Yocum.

Those on the 7th grade nine weeks merit roll were: Mickey Baber, Glenda Payne Ball, Howard Byers, Joy Ann Davis, Mary Frances Fields, Patricia Goodwin, Mike Hudspeth, Mary Beth Jackson, Linda Gail Johnson, Dora Ann King, Jeanie Lowe, Carolyn McMillan, Janice Martin, Ruth Ann Mohon, Joe Mosley, Barbara O'Steen, Tonye Power, Patricia Rogers, Caroline Rogers, John Schooley, Karen Shepherd, Donna Stevenson, Janet Terrell, David Waddie, Beverly Walters, Ginny Warren, Sonya Yates, Kendall Yocum.

Lost or Strayed

BLACK Boar Hog, weight around 200 pounds. Strayed from Andy Ficklen farm 3 weeks ago. Any one knowing the whereabouts of this hog, please notify Snellie Green, Rt. 1, Box 251, Washington, Ark. 11-42-1tp

He gave to 40 persons the task of finding an object which might be in a number of places. There are two ways of going about such a task. You can go about it systematically and move from possible place to possible place in some kind of orderly manner, say, from left to right.

This way, you're certain to find the object although if your luck is bad, it will be in the very last of the places where it could have been. Or you can go about it on a hunch basis. This way you fill about at random. With luck, you find it quickly. Without luck, you may never find it because of the risk of forgetting where you've looked and of overlooking places where the object could be.

Measured Intelligence
Of Dale's 40 persons, 22 played the game the hunch way which, when you think about it, doesn't make much sense. Dale then measured the intelligence of these 22 by psychological testing, and found that they were less intelligent than the 18 who had searched for the object systematically.

But rather than answering the question, this result asked one. Had superior intelligence permitted the 18 to figure out in advance that the laws of probability made the systematic way more likely to be profitable than the hunch way?

Dale found that the 18 actually were better at figuring odds than were the hunch players. They, too, had had hunches, but hunches to one side. In short, they had hunch-count, and the less intelligent didn't.

WHO'S WHO?
An old farmer and his wife in the big city on their first visit were in the great art gallery where some of the world's greatest paintings hang. They came to one great picture which portrayed a lovely young woman astride a fine horse. The title of the picture was "Beauty and the Beast."

"It says it's called 'Beauty and the Beast,'" said the old man.

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

"That's right," said the old man. "I've seen it in the picture books."

"That's right," said the old woman. "I've seen it in the picture books."

WORSHIP EVERY SUNDAY IN YOUR FAVORITE CHURCH

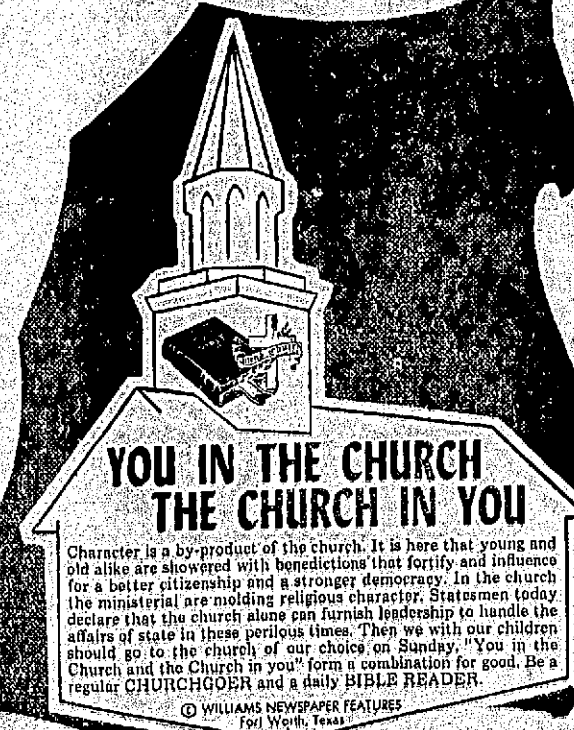

YOU NEED THE SPIRITUAL UPLIFT OF A PRAYER-HOUR IN GOD'S HOUSE

HAVE
FAITH
IN
GOD

"HELLO PASTOR

— this is Dave. I just want to tell you we have decided to start going to Sunday School and preaching services again... we'll see you Sunday. "We realize it is foolish and not in the best interest of all concerned when we stay away. So, you will please put us on the roll call again... the whole family... we'll be there, and regular from now on. And say, pastor, we are bringing along some friends who have expressed an interest. They, too, have been procrastinating but want to get back in the line of duty... yes, they will be regular. "And wait a minute, pastor, any of us will teach a class if we are needed. Will see you Sunday. Bye, 'til then."
